

## Organ-Specific Autoantibodies

Anti-Thyroid Peroxidase (TPO) : Thyroid

Anti-Thyroglobulin (Tg) : Thyroid

Anti-Gastric Parietal Cell (GPC) : Stomach

Anti-Glomerular Basement Membrane (GBM): Kidney

## Systemic Autoantibodies

Anti-Nuclear Antibodies Screen (ANA)

ENA-6: Screen Extractable Nuclear Antigens

## ENA-6 (Confirmation) Tests

ENA-6-Profile\* (16 cavities each for all of the 6 antigens)

Anti-Sm

Anti-SS-A/Ro: Sjögren's Syndrome

Anti-SS-B/La: Sjögren's Syndrome

Anti-Sm / RNP (Ribonuclear Protein)

Anti-Scl-70: Systemic Sclerosis

Anti-Jo-1

## DNA Autoantibodies

Anti-dsDNA: Anti-double-stranded DNA

## ANCA (Anti-Nuclear Cytoplasmic Antibodies)

Anti-MPO p-ANCA

Anti-Pr-3 c-ANCA

## Phospholipid Autoantibodies

Anti-Cardiolipin Screen (ACA)

Anti-Cardiolipin IgG

Anti-Cardiolipin IgM

Anti-β2-Glycoprotein-I IgA

Anti-β2-Glycoprotein-I IgG

Anti-β2-Glycoprotein-I IgM

## Rheumatoid Autoantibodies

Rheumatoid Factor IgA (RF IgA)

Rheumatoid Factor IgG (RF IgG)

Rheumatoid Factor IgM (RF IgM)

## AUTOSTAT II ELISA Microplate Assay Kits have some features :

Ready-to-use reagents in kits that include wash buffer concentrate  
Microplates with 12 strips of 8 convenient break-apart wells  
Horseradish peroxidase (HRP)/TMB detection system  
Improved productivity and flexibility using the HYTEC 288 system: combine up to 8 different Autoimmune parameters in one run

## **Celiac Disease Autoantibodies**

Anti-Gliadin IgG

Anti-Gliadin IgA

## **Basic Reagents And Components for Autoimmune Applications**

Substrate Solution (TMB) , 15 mL

HYTEC Tubes, 9 x 45 mm , 500

Autoimmune Stop Solution (0.25 M H<sub>2</sub>SO<sub>4</sub> ) , 1000 mL

Autoimmune Wash Buffer (Standard) , 1000 mL

Autoimmune Wash Buffer (Cardiolipin) , 1000 mL

Microtiter Plates (blank) , 5/bag
